

Priti Das Artist Statement

I'm Priti Das and I am 16 years old attending Eastlake high school. I have been passionate about different arts since I was little. Whether it's dancing, singing, playing the flute, acting, or painting, I find excitement and lots of joy. When I was in 8th grade, my drawing went to the National level for the PTSA Reflections program. I paint and draw, but I've recently had a passion for making jewelry with terra cotta and painting it. I love doing art because it's a great way to get your creativity across. I hope to continue to pass on the knowledge of art to future generations.
