

## Artist statement

my paintings are my discoveries. i have to say i have motor challenges which makes it hard for me to write.

i started to write in second grade.

later i found sumi ink book. the sumi-e circle helped me realized the part of my hand i never felt before. the more i want to paint the more i want to feel that feeling to free me. the acrylic is a very versatile medium.

i am learning to say in paintings to tell stories. through my paintings i hope people can see my life is beautiful and worth living.

i have autism and can't speak. however it does not effect the work.

i am an artist.

rey.
