

Terry Smith
Artist Statement
7/18/17
for Sammamish Arts Fair

Terry Smith celebrates 30 years living in Klahanie this year. Always a lifelong “arts dabbler”, she became much more involved in painting after retiring from her technology career in 2014.

Terry loves experimental art, trying out new materials, tools and techniques. She is constantly learning and taking classes, both online and in person, from local and international instructors. She is currently focusing on mixed media work including acrylic paint, collage, mark making and other techniques. This series of work was created during and following the Art2Life Creative Visionary program earlier in 2017.

You can see more of Terry’s work on her website and social media feeds.
